

## GUIDELINES FOR ABSTRACT PREPARATION AND REGISTRATION

The abstract should not exceed one page of A4 size paper. The text should be written in English (12 points font size) with 1.5 spacing between the lines. A hard as well as soft copy (CD or floppy disc or through email) of the abstract should be sent to the Organizing secretary so as to reach before 8th February 2009. The abstract must be accompanied by the registration fee in favour of "UGC-DSA Symposium".

### REGISTRATION

Faculty	Rs. 500/-
Research Scholars	Rs. 250/-

### ACCOMMODATION

Accommodation will be arranged in the University guest house on payment basis upon request. Delegates interested for accommodation in University guest house are requested to pay Rs. 200/- as advance payment.

## THE CONFERENCE

Molecular revolution in biological sciences initiated with the emergence of bacterial genetics along with cell biology and biochemistry. It also included the development of new advanced techniques for research in macromolecules and molecular information transfer by nucleic acids. Further the recent bioinformatic approaches (e.g., data mining, and machine learning algorithms) have enabled handling and analysis of large amount of complex data accelerating the research in genomics and proteomics. These advances have influenced the pace and ease of research in various fields of biology viz. plant and agricultural sciences, environmental sciences, animal and health sciences as well as food and pharmaceutical industries.

This conference is aimed to provide platform for exploring recent developments as well as to foster interactions among researchers working in the area of biological sciences. The conference will comprise of both invited talks by eminent scientists as well as contributions from delegates. The focus will be on the following areas:

1. Plant and Agricultural sciences
2. Human health, medicine and animal sciences
3. Environmental sciences
4. Food and fermentation
5. Molecular biology and biochemical sciences

All the interested delegates are invited to submit an abstract of their research work which will be considered for oral/poster presentation.

## THE VENUE

Vallabh Vidyanagar, situated about 5 Km from the 'Milk City' Anand, is a well-known educational township of national recognition. Karamsad, the birthplace of Sardar Vallabhbhai Patel, the 'Iron Man of India' is very close to this town ship. Educational institutions from faculties like engineering and technology, medicine, pharmacy, business studies, home science, etc. managed by different education societies and the post-graduate departments of Sardar Patel University offer quality education in various fields. Vallabh Vidyanagar has a rural ambience with all the amenities of a modern city. The weather during February will be pleasant.

The conference will be organized by BRD School of Biosciences, which is situated in the satellite campus of Sardar Patel University about 2 Km away from the main campus in Vallabh Vidyanagar. The school of biosciences, established in 1958, is recognized as one of the premier institutes offering postgraduate and research programs in various disciplines of Biology. The school runs six postgraduate programs viz. Botany, Zoology, Biochemistry, Microbiology, Biotechnology and Industrial Biotechnology (DBT sponsored). The school is also supported by UGC-DSA/SAP-II, UGC-COSIST and DST-FIST programmes for research. The conference will be held at GCET AUDITORIUM, G. H. Patel College of Engineering and Technology, situated near Vallabh Vidyanagar.
