Course Objective and Pedagogy
The purpose of this course is to enable the students for in-depth analysis of a topic relating to his/her area of specialization, and develop a comprehensive understanding on the same.
For this the students will choose his/her faculty guide in his/her area of specialization and work on the topic jointly with the faculty. The students will work on their projects individually and not in pairs or teams. The institute may help the student in selecting a faculty guide in case a student is not able to do so, or if a faculty member is chosen by too many students. As a rule, no faculty member may be permitted to guide more than 10 students.

The learning can be carried out through:
1. Study of secondary data from books, journal and magazine articles, newspaper articles, websites, electronic and physical databases, etc.
2. Primary data collection through interviews, discussions, and other research instruments. Students are encouraged to pursue the research in the organization where they had undergone their summer internship.

The Project report can be on any of the following:
1. Comprehensive case study of Industry or segment.
2. Organizational study aimed at inter-organizational comparison/validation of Theory/survey of management practices with reference to particular industry.
3. Field study (empirical study) with respect to any research issue.
4. Feasibility Study as Comprehensive Project.

The format of the report would comprise following points:
1) Title page
2) Preface
3) Acknowledgement
4) Certificate
5) Table of Content
6) Introduction and Identification of Problem with reasons
7) Literature Review
