## THE CITY

The educational township of Vallabh Vidyanagar is close to Anand (Milk City of India). The town is well connected with the rest of the country by railway network and roads. It is an important commercial and education center located on Ahmedabad-Mumbai line of the Western Railway. The nearest airports are Sardar Patel International Airport, Ahmedabad (80 km) and Vadodara Airport, Vadodara (40 km).

## THE UNIVERSITY

Named by the great visionary and architect of modern India, Sardar Vallabhbhai Patel, the university was established in the year of 1955. Initiated as a rural university, it has emerged as a reputed seat of learning and has created its own niche in the field of academics and research. The University is approved under section 2 (f) and 12 B of the UGC Act. The University is re-accredited with 2.83 CGPA. The University boasts of state of the art infrastructural facilities for research and is globally renowned for its students and educational standards supplemented with high acumen and knack for research.

: Motto :

Character and Conduct are Fruits of Learning

## THE DEPARTMENT

Post Graduate Department of Pharmaceutical Sciences was established in academic year of 2010 with generous financial aid from UGC under XI<sup>th</sup> plan. The Department offers post graduation programs leading to Masters in Pharmacy (M.Pharm.) in Pharmaceutics and Quality Assurance with intake of 18 students in each branch. The Department has been approved by All India Council for Technical Education, New Delhi since July 2011. The Department believes in imparting quality education and promoting research activities of global standards. The department is well equipped with state of the art infrastructure, ambience conducive to learning in terms of A.C. classrooms, modernized library boasting of peer reviewed journals and books of global reputation and high standards.

## THE CONFERENCE

Since past few decades, research in field of pharmaceutical formulations has witnessed a paradigm shift. Major breakthroughs in the field of nanotechnology have provided an impetus to development of target oriented, user friendly drug delivery systems. Apart from liposomes, nanoparticles and microemulsion based systems, micelle based drug delivery systems, dendrimers, nanogels have fascinated the attention of scientific fraternity actively involved in this field. The buzzword of current day research in pharmaceuticals is nanotechnology. Though lot has been said and discussed about nanotechnology, some core issues such as stability of nanoconstructs, industrial scale up, advances in the field need to be addressed upon. The two days national level seminar is an attempt in the direction to explore the hidden facets of nanotechnology, to acquaint the young researchers with the nanotechnology in drug delivery supplemented with knowledge exchange and interactive sessions from academic and industrial stalwarts to share their experience and expertise. The national seminar has been organized to familiarize the scientific arena with current research in nanotechnology based new drug delivery systems. Looking upon the rapid advancements in the field, it is the need of hour to address certain core issues pertinent to field and build upon industrial academic interface to meet the end.
