## SARDAR PATEL UNIVERSITY Programme: B.Sc (Instrumentation-Vocational) Semester: VI Syllabus with effect from: June - 2013

| Paper Code: US06CINV02                  | Total Credit: 3 |
|---|-----------------|
| Title of Paper: Control Techniques - II | Total Creuit: 5 |

| Unit | Description in detail  | Weightage (%) |
|------|--|---------------|
| Ι    | Advanced Process Control Strategies  |               |
|      | Block Diagram Representation of Process Control Systems, Types of Process  |               |
|      | Control Systems: Open - Loop Control System, Feedback Control System,      | 25%           |
|      | Feedforward Control System, Cascade Control System, Ratio Control          |               |
|      | System, Analog and Digital Control Systems, Linear and Non - Linear        |               |
|      | Control Systems; Application Based Classification of Control Systems       |               |
| II   | Programmable Logic Controllers (PLCs)                                      |               |
|      | Introduction to Microcomputers, Programmable Controllers, Programmable     |               |
|      | Logic Controllers (PLCs): PLC Architecture, Basic Structure, PLC           |               |
|      | Programming, Ladder Diagram: Symbols, Circuit; PLC Communication and       | 25%           |
|      | Networking, PLC Selection: I/O Quantity and type, I/O Remoting             |               |
|      | Requirements, Memory Size and Type, Programmer Units, PLC Installation,    |               |
|      | Advantages of Using PLCs   |               |
| III  | Distributed Control System (DCS)   |               |
|      | Introduction, Overview of DCS: Operator's Console, Video Display,          |               |
|      | Keyboard, Information Displays; DCS Software Configuration, DCS            | 25%           |
|      | Communication, DCS Supervisory Computer Tasks, DCS Integration with        |               |
|      | PLCs and Computers, Features of DCS, Advantages of DCS                     |               |
| IV   | Selection, Installation, & Commissioning of Instruments                    |               |
|      | Introduction, Selection of Instruments: Reliability of Measurement System, |               |
|      | Total Lifetime Operating Cost of Measurement System; Installation and      |               |
|      | Commissioning of Instruments: Storage and Protection, Mounting and         | 25%           |
|      | Accessibility, Piping Systems, Air Supplies, Pneumatic Signals, Impulse    |               |
|      | Lines, Cabling, Earthling, Testing and Pre - Commissioning, Plant          |               |
|      | Commissioning.   |               |

## **Basic Text & Reference Books:**

- ▶ Industrial Instrumentation and Control By S. K. Singh
- Computer Based Industrial Control By Krishna Kant
- Control System By Nagrath and Gopal
- Industrial Electronics By Petruzella
- Control Systems By K. Padmanabhan
