

SARDAR PATEL UNIVERSITY
B.Sc (CA & IT) – M.Sc (CA & IT) Dual Degree
Semester - 3
US03CIIT21 : Computer Programming using C++
(w.e.f June 2020)

Credits : 4

Exam Duration : 3hrs

Lectures per week : 4

All units carry equal weightage.

Unit	Description in detail	Weightage (%)
I	<p>Object Oriented Programming (OOP) Concepts and Introduction to C++ Structured programming vs. object oriented programming Basic OOP concepts : objects , classes , encapsulation , data hiding , inheritance, polymorphism Introduction to C++: structure of a C++ program , data types , variables, constants, expressions, statements and operators Usage of header files Control flow statements : if else, for loop, while loop, do while loop, switch, break and continue</p>	25%
II	<p>Input/Output, Arrays and Working with Classes Basic I/O in C++ Arrays in C++ : introduction, declaration, initialization of one , two and multidimensional arrays, operations on arrays Working with strings : introduction, declaration, string manipulation and arrays of string Classes and objects in C++ Constructors : default, parameterized, copy, constructor overloading and destructor Access specifiers, implementing and accessing class members Working with objects : constant objects, nameless objects, live objects, arrays of objects</p>	25%
III	<p>Functions, Function Overloading and Inheritance Introduction to functions, library and user-defined functions, parameters passing, default arguments Functions overloading , inline functions, friend functions and virtual functions Inheritance: Introduction, derived class declaration, forms of inheritance Inheritance and member access ability, constructor and destructor in derived class, construction invocation and data member initialization.</p>	25%

IV	Operator Overloading, Pointers and Files Operator overloading : Introduction, overloaded operators, unary operator overloading, operator keyword, operator return values, binary operators overloading, overloading with friend function Dynamic memory allocation Files : introduction and applications File operations : open, read, write, seek and close	25%
