## Purpose of M.D. (Homoeopathy) - Homoeopathic Materia Medica:

The purpose of this course is to train the basic Homoeopathic graduate in the field of Homoeopathic Materia Medica, to ensure a better healer and to produce excellent thinkers, research scholars and teachers in Homoeopathy as well as to achieve highest standards in the system of Homoeopathy.

### A postgraduate in M.D. (Homoeopathy) - Homoeopathic Materia Medica shall:

1) Have the high degree of proficiency both in theoretical and practical aspects of Homoeopathic Materia Medica backed by scientific knowledge and philosophy.

2) Have the confidence to assess and manage the patients who are sick and in cases of paucity of symptoms ability to overcome it by the knowledge of Homoeopathic Materia Medica.

3) Have the caring attitude and sympathy towards sick and maintain high moral and ethical standards.

4) Have the knowledge regarding latest happenings and issues pertaining to the prevention of disease and promotion of health and the epidemiology underlying the common health problems with special relevance to India.

#### Aims:

☆

☆

☆

☆ ☆

☆

☆ ☆

☆

☆

1) To recognize the need of physical, social mental and spiritual health care of the sick in the spirit of Organon of Medicine.

2) Shall obtain competency in providing complete health care (physical, mental, social and spiritual) to the needy, so as to achieve a permanent restoration of health in gentle manner as quoted in Organon of Medicine.

3) To investigate what is to be cured in disease and what is curative in the various medicines in order to understand the scope and limitations of Homoeopathy.

4) Shall obtain the communicative and interpersonal skills to communicate and interact with health care teams.

5) Shall have a profound knowledge in Homoeopathic Materia Medica including rare and uncommon remedies in order to achieve restoration of health at any levels of sickness.

6) Shall adopt a scientific temper and unbiased approach to augment selfknowledge to improve the quality of treatment throughout his/ her professional life.

7) Shall be able to coordinate the recent advances in science with his/ her knowledge of Homoeopathy, so as to reflect better art of healing.

8) To develop an open mind to update him/ her by self-study, attending courses, conferences and seminars relevant to the specialty.

#### **General Objectives:**

☆

☆ ☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆

☆ ☆

☆

☆

☆

☆

☆

☆

☆ ☆

☆

☆

☆

☆ ☆

☆ ☆ ☆

☆

1) To develop high standards in approach and management of sick, in order to fulfill his/ her only mission.

2) To develop excellent teaching skills, different techniques and educational methods in teaching homoeopathic students and its practitioners.

3) To practice medicine ethically and in step with principles of health care and the philosophy of Homoeopathy.

4) To demonstrate empathy and holistic approach towards sick and exhibit interpersonal behaviour in accordance with expectations of the society.

5) To play important role in implementing national health programmes.

6) To educate the people and promote preventive measures for common health problems by Homoeopathy, in order to achieve better health standards.

7) Undertake common health problems, use information technology, and carry out research both basic and clinical with the objective of publishing his/ her work and presenting of various scientific for a by which our fellow Homoeopathy can be Benefited.

8) To prove medicines which are partially proved in order to ascertain its true nature and qualities for the better implementation of similia. The syllabus has been designed with the objective of delivering to the candidate the entire experience of basic and applied aspects of Homoeopathic Materia Medica. It will include the basic philosophical background and conceptual framework necessary to understand the different approaches and there clinical applications. THE SYLLABUS OF MD-PART I deals with

The understanding of the basic science and philosophy of Materia Medica. This Part will help the student to understand the functional, structural, psychological and causative aspects of Materia Medica. It will also give him insight in to Clinical Materia medica useful in there resident posting THE SYLLABUS OF MD-PART I deals with

Evolve matching methods and techniques that will experientially deliver to the candidate the entire experience of understanding Materia Medica by forming the portrait at the level of artificial disease and matching at the level of natural disease. Different approaches to Materia medica also will form a part of this year. It also will guide the student to understand the different authors and their philosophical and conceptual background and clinical application.

Differential and comparative Materia Medica than becomes the next step for bedside differentiation. Group study is the integrated component of understanding Materia Medica as it helps in exploring the general indications as well as understanding the components with the characteristics. The syllabus will thus prepare the ground and train the student in grasping philosophical conceptual and factual facets of Materia Medica and thus prepare him to take larger role in the exploration of Materia Medica at academic, clinical and research level.

	***************************************
☆ ☆	
☆ ☆	Materia Medica study at the postgraduate level will require a definite
$\bigstar$	mathedology. The stops needs clear definition. It should be clear that the $\checkmark$
☆	
☆ ☆	purpose of the study is to equip the physician with a Philosophy and a Method and not cram him with facts that are possible to refer to the books while at the $\Rightarrow$

☆ ☆	
☆ ☆	<b>MD PART-I SYLLABUS</b>
$\stackrel{\wedge}{\sim}$	In addition to UG Syllabus, the following topics shall be taught in detail:
☆ ☆	1. Science and philosophy of Hom Materia Medica
☆	2. Definition, history, nature and scope and limitation of Homoeopathic
☆	Materia Medica.
☆ ☆	3. Sources of Hom Materia Medica, Drug proving and Collection of symptoms
$\stackrel{\sim}{\bigstar}$	4. Types of Hom Materia Medica-concept, philosophy, scope and limitation of
\$	each. Study and construction of Hom Materia Medica-building a portrait of
☆ ☆	artificial disease and drug picture integrating concept studied.
$\frac{1}{2}$	5 Science And Philosophy Of Homoeopathic Materia Medica (General)
☆	Including Artificial & Natural Disease. Describe Curative Power Of Medicine
☆ ☆	And Role Of Vital Force.
$\scriptstyle \scriptstyle $	6.Different approaches of study of Hom Materia Medica i.e. Psycho-clinico-
$\bigstar$	Pathological, Synthetic, Comparative, Analytic and Remedy relationship
☆ ☆	7. Hahnemenian Concept Of Causation: Fundamental, Exciting, Maintaining
× ☆	Cause And Its Application In Homoeopathic Materia Medica.
☆	8. Group study of Hom Materia Medica- Mineral kingdom.
☆	(i) Carbon Grpup.
☆ ☆	(ii) Acid Group
$\bigstar$	(iii) Halogen Group
$\stackrel{\wedge}{\leftarrow}$	(iv) Sulphur, Sulphides, Sulphates Groups
☆ ☆	(v) Phosphorus and Phosphates Group
$\stackrel{\sim}{\bigstar}$	(vi) Arsenic and Arsenates Group
☆	(vii) Silica and Silicates Group
☆ ☆	(viii) Natrum Group
$\stackrel{\sim}{\leftarrow}$	(ix) Calcarea Group
\$	(x) Magnesia Group
☆ ☆	(xi) Alkali Group
$\stackrel{\sim}{\Delta}$	(xii) Alkaline Earths Group
\$	(xiii) Baryta Group
☆ ☆	(xiv) Radio-active Group
$\stackrel{\frown}{\Delta}$	(xv) Ferrum Group:
$\bigstar$	(xvi) Mercury Group
☆ ☆	(xvii) Metal Group, etc.
$\stackrel{\sim}{}$	9 .Comparison of Homoeopathic Materia Medica with other pharmaceutical
$\bigstar$	systems.
☆ ☆	10. Concept of health and developmental study of man. Normal physiological
× ☆	functioning and its development and its application in the study of Hom Materia
☆	Medica. Study of Physiological Materia Medica
$\stackrel{\wedge}{\sim}$	11. Study of normal structural organisation of man and its application in the

11. Study of normal structural organisation of man and its application in the study of sphere of action of remedies. Study of schematic materia medica.

☆

☆ ☆

☆

 $\bigstar$ ☆ ☆ ☆ 12. Concept of causation from the Hahnemannian perspective, viz. fundamental, ☆ exciting, maintaining causes and its application in the study of Hom Materia ☆ Medica ☆ ☆ 13. Bio-Psycho-Social concept of Aetio-pathogenesis and evolution of the ☆ disease phenomena to integrate with the study of Hom Materia Medica ☆ 14. Development and maturation of mind from childhood to old age-normal ☆ ☆ characteristics and the relevance and application to Homoeopathic materia ☆ medica ☆ 15. Study of mental symptom, mental state, disposition, constitutions, ☆ ☆ temperaments and evolutionary study of Hom Materia Medica ☆ 16. Study of Hom. Medicines as per list from drug number 1 to 211. ☆ ☆ ☆ ☆ ☆ **MD PART- II SYLLABUS** ☆ ☆ In addition to part I syllabus, the following topics will be covered in Part II ☆ ☆ ☆ 1. Concept of artificial and natural diseases. Concept of Drug Proving. ☆ ☆ Understanding the evolution, philosophy and construction of the source book ☆ Study Of Materia Medica Source Books, Plan & Construction ☆ ☆ Evolution, Limitation & Scope Of: Fragmenta de viribus, Theory of chronic ☆ disease and Materia medica pura by Dr Hahnemann ☆ 2. Clinico-pathological correlations of the diseases and integrating pathogenesis ☆ in study of Hom Materia Medica. Bio-Psycho-Social Concept Of ☆ ☆ Etiopathogenesis & Evolution Of Disease Phenomenon With Application In ☆ Materia Medica For Following Medicines: ☆

Lycopodium Nat. Mur. Ignatia Kali Carb

Pulsatilla, Nitric Acid, Mercurius

Anacardium, Moschus Nux Vomica

Ars. Alb Sepia Phosphorus, , Cal.Carb,

Platina Staphysagria Mag.Carb

Hvocymus, Stramonium, Veratrum Album

Tarantula, Carcinosinum

3.Study & Understanding Of Different Materia Medica

- a. Synoptic Key By Dr. C.M.Boger
- b. Materia Medica By Dr. Boericke
- c. Key Note Materia Medica By Allens H.C.
- d. Materia Medica Pictures By Dr. M.L.Tyler
- 4. Clinical Materia Medica and its practical application at the bedside
- 5. Group study of Hom Materia Medica- Animal kingdom e.g Mammalia,
- Ophidia, Mollusca, spider, Insect etc.

**Paper-I** 

7. Evolution of Hom Materia medica with focus on the evolving concepts, masters and the books, their construction and utility.

8.Scope & Limitation of the current state of knowledge of Homoeopathic

Materia Medica with the demands of Clinical Practice and Education

9. Study of Hom. Drugs / Medicines as per list From212 to 316

## **Paper-II**

1. Study Of Materia Medica Source Books, Plan & Construction Evolution, Limitation & Scope Of:

A. The Encyclopedia Of Pure Materia Medica By T.F.Allen

B. A Dictionary Of Practical Materia Medica By Dr.J.Clarke

C. The Guiding Symptom Of Our Materia Medica . Hering

2. Theory of Biochemic system of Medicine and Biochemic Medicines

3. Group study of Hom Materia Medica- vegetable kingdom example as.

 $\Box$  APOCYNACEAE

□ LOGANIACEAE

 $\Box$  ARACEAE

(1) Drugs should be studied in Groups, stressing the Common as well as the differential features of the individual drugs included in the Group.

(2) Study should lay stress on the Method and Approach and not so much on Factual

Knowledge, access to which, is readily provided by the Repertories. Examination,

thus, would not be primarily a Test of Memory but of the capacity to organize and

deal effectively with the mass of data presented by the Homoeopathic Materia Medica. Drugs / Medicines should be studied with all its aspects along with its relations and comparisons.

(3) **Polycrest Drugs (For example marked as \*):** These are to be studied systematically to bring out the 'Portrait of the Disease'. Full Questions on the Group or individual members of the Group may be asked in the Paper. (In part I this category is to be studied from clinical perspective and for demonstrating the concept and philosophy. In part two the detailed drug picture need to be studied) (4) **Drugs other than polycrest:** These are to be studied in a more restrictive manner,

stressing their Prescribing Totalities in the spheres in which the drug is commonly

employed. Here stress is more often on the Characteristics Particulars; important

Generals, where they are clearly established, however, are not to be neglected. None of these drugs shall form the topic for a full question in the Paper.(these drugs are to be studied in part one only)
