Following are the topics to be studied:-

1. **Blood :**
 - (a) Anemia
 - (b) Hemophilia
 - (c) Thalasemia,
 - (d) Auto Immune diseases

2. C. V. S. :

- (a) Hypertension (b) Angina Pectoris (c) Myocardial infarction
- (d) Rheumatic Heart disease of COR PULMONALE
- (e) Valvular Heart disease

3. Respiratory system :

- (a) Tuberculosis (b) Bronchial Asthma (c) Pneumonia
- (d) Ca lung (e) Rhinitis (f) Bronchi cctasis
- (g) Emphysema (h) Pleurisy (i) Empyema

4. G. I. T. including Liver & Pancreac :

- (a) GERD (b) Peptic Ulcer
- (c) Acute Pancreatitis (d) Ulcerative colitis
- (e) Celiac disease (f) Cholecy stitis
- (g) Hepatitis (h) Piles and fissures

5. Renal :

- (a) Haematuria, (b) Urolithiasis
- (c) Urinary tract infections including Nephritis, Urethritis, Pyelonephritis, Glomerul nephritis
- (d) Chronic Renal Failure (e) Acute Renal Failure

6. Endocrine :

- (a) Diabetes Melitus type I & II (b) Diabetes Insipidus
- (c) Hypothyroidism (d) Hyper thyroidism
- (e) Dwarfism (f) Cretinism

7. Reproductive :

- (a) Amenorrhea (b) Leucorrhoea (c) Metrometrorrhagia
- (d) Uterine prolapsed (e) Ovarian cyst (f) Endometriosis
- (g) Sterility (h) Cervical erosion (i) Uterine Fibroid
- (j) Ca uterus (k) Antenatal & Post natal Care

8. C. N. S. :

- (a) Epilepsy (b) Parkinsonism (c) Neuro muscular palsies

9. Loco-motor system :

- (a) Rheumatoid Arthritis (b) Gout (c) Osteo arthritis
- (d) Osteomyelitis (e) Spondylosis (f) Fracture
