

Lab 1

1. Isolation of DNA from the plant
2. Estimation of the DNA.
3. Estimation of the RNA.
4. G/C ratio Melting value.
5. Study of fossils
6. Comparison of homology and analogy
7. Study of divergent vs convergent evolutionary patterns
8. Visit to Zoological park/ museum
9. Study of Hardy-Weinberg Law
10. Study of Phylogenetic tree
