Restlessness among the students of colleges and universities culminating in indiscipline has stemmed from their deep-rooted feeling that their views and aspirations are ignored by their elders - politicians, and administrators, teacher and educationists. The situation has been aggravated by a sense of insecurity among them. It is high time that sincere efforts be made and concrete steps taken to analyse and solve their genuine problems... One of the most pressing problems facing our country is the development of a national outlook overriding parochial, religious and linguistic consideration. In this task the universities can and should play a decisive part. Autonomy in academic matters does not mean that universities should be oblivious of special need. In fact, universities are set up for the satisfaction of certain felt needs of society and they have to be fully sensitive and responsive to them.
