Our forests are important source of natural wealth, covering one fifth of the country's land area. They supply timber for the railway, house building and furniture making. They also supply fuel for cooking and bamboo for paper making. Medicinal herbs also come from the forests. In the olden days our wisemen and philosophers had their 'Ashrams' in the forests. These ashrams were centers of knowledge and learning. Unfortunately, forests have been ruthlessly cut down in the past few years. While the forests are disappearing, the demand for the timber is growing. We must therefore protect and develop our forests. 'Vana Mahotsava' is an important step in this direction. It is observed for a week in the month of July every year. During this week, lakhs of saplings are planted throughout the country. This is being done to restore our fast disappearing forests.
