No. of Printed Pages : 1

SARDAR PATEL UNIVERSITY

BBA(ISM) Vth SEM Examination

Saturday, Date 20/10/2018

Time 10.00 am to 12.00 pm

Software Engineering – (UM05CBBS06)

Total Marks: 60

- Q-1 [A] Is software expensive? Explain. [07]  
[B] Why is maintenance needed for software, when software does not Age. Explain in detail. [08]
- OR
- Q-1 [A] What are the software Quality attributes? Explain [07]  
[B] Explain the phase development process in detail. [08]
- Q-2 [A] What are the desired characteristics of software process? Explain. [07]  
[B] Explain the Time boxing model in detail. [08]
- OR
- Q-2 [A] What is ETVX Approach for process specification? [07]  
[B] Explain Iterative development model in detail with example. [08]
- Q-3 [A] What is SRS? What is the need of SRS? [07]  
[B] Explain the role of software architecture in detail. [08]
- OR
- Q-3 [A] What is the objective of validation in SRS? [07]  
[B] List out all the characteristics of SRS? Explain in detail. [08]
- Q-4 [A] What are the common Coding errors? Explain. [08]  
[B] What are the guidelines for structure and unstructured programming. [07]
- OR
- Q-4 [A] What are the Coding Standards? Explain. [08]  
[B] Explain Error, Fault and failure. [07]
