C1157

SARDAR PATEL UNIVERSITY

B.Sc., V- SEMESTER EXAM, DECEMBER-2020

ZOOLOGY, US05CZOO24 (Ecology & Animal Behaviour)

DATE: 29-12-20, TUESDAY

TIME: 2pm to 4pm

MARKS: 70

(10)MULTIPLE CHOICE QUESTIONS. Q-1. 1. Species are (b) Always remain isolated (a) Dominant to other species (d) Different gene pool (c) Always inter communicable 2. Ecotone is the (b) Horizontal ecosystem (a) Deep ecosystem (d) Connecting ecosystem (c) Vertical ecosystem Community interactions are 3. (d) All of above (c) Competition (b) Reproduction (a) Predation Dams on Rivers are poorly affect the 4. (d) Resource availability (c) Diversity (a) Species richness (b) Abundances 5. Official engendered species declared by (d) BNHS (c) ZSI (b) WWF (a) IUCN Which one of the followings is a mouth breeder? 6. (d) Cichlid (c) Sea horse (a) Stickleback (b) Eel Courtship occur in Birds of Paradise by 7. (d) Sound (b) Pheromones (c) Visual (a) Light Large horns, sharp teeth are the consequence of 8. (d) None of these (a) Intrasexual selection (b) Intersexual selection (c) Both In which type of rhythm shows hibernation? 9. (d) Lunar (b) Circadian (c) Tidal (a) Circannual The hormone that is secreted to help with sleep is called 10. (d)Melatonin (c) Adrenalin (b) Thyroid (a) Oxytocin

 Interior habitat always decreases after When two species use same resources called Skinner box is used in method for studying animal behaviour. The menstrual cycle is an example of a rhythm. Biodiversity is variety of life. (True or False) Climate change affects to Natural resources. (True or False) External fertilization is a primary form of fertilization. (True or False) A Biological rhythm is best defined as a change over time. (True or False) ANSWER IN SHORT. (Attempt any 10) What is Identical Niche? What are the reasons of Competition? Write about species Richness Write about Effect of Pollution How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. Explain the term Biological rhythm and Biological clock. 	(20)
3. Skinner box is used in method for studying animal behaviour. 4. The menstrual cycle is an example of a rhythm. 5. Biodiversity is variety of life. (True or False) 6. Climate change affects to Natural resources. (True or False) 7. External fertilization is a primary form of fertilization. (True or False) 8. A Biological rhythm is best defined as a change over time. (True or False) Q-2. ANSWER IN SHORT. (Attempt any 10) 1. What is Identical Niche? 2. What are the reasons of Competition? 3. Write about species Richness 4. Write about Effect of Pollution 5. How Biodiversity is useful to Universe? 6. Explain term green house effect. 7. Explain the term external & internal fertilization. 8. Write about attention & courtship by sound. 9. Explain the term sexual dimorphism with example. 10. Write about Lunar rhythm.	(20)
4. The menstrual cycle is an example of a rhythm. 5. Biodiversity is variety of life. (True or False) 6. Climate change affects to Natural resources. (True or False) 7. External fertilization is a primary form of fertilization. (True or False) 8. A Biological rhythm is best defined as a change over time. (True or False) Q-2. ANSWER IN SHORT. (Attempt any 10) 1. What is Identical Niche? 2. What are the reasons of Competition? 3. Write about species Richness 4. Write about Effect of Pollution 5. How Biodiversity is useful to Universe? 6. Explain term green house effect. 7. Explain the term external & internal fertilization. 8. Write about attention & courtship by sound. 9. Explain the term sexual dimorphism with example. 10. Write about Lunar rhythm.	(20)
5. Biodiversity is variety of life. (True or False) 6. Climate change affects to Natural resources. (True or False) 7. External fertilization is a primary form of fertilization. (True or False) 8. A Biological rhythm is best defined as a change over time. (True or False) Q-2. ANSWER IN SHORT. (Attempt any 10) 1. What is Identical Niche? 2. What are the reasons of Competition? 3. Write about species Richness 4. Write about Effect of Pollution 5. How Biodiversity is useful to Universe? 6. Explain term green house effect. 7. Explain the term external & internal fertilization. 8. Write about attention & courtship by sound. 9. Explain the term sexual dimorphism with example. 10. Write about Lunar rhythm.	(20)
 Climate change affects to Natural resources. (True or False) External fertilization is a primary form of fertilization. (True or False) A Biological rhythm is best defined as a change over time. (True or False) ANSWER IN SHORT. (Attempt any 10) What is Identical Niche? What are the reasons of Competition? Write about species Richness Write about Effect of Pollution How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	(20)
 External fertilization is a primary form of fertilization. (True or False) A Biological rhythm is best defined as a change over time. (True or False) ANSWER IN SHORT. (Attempt any 10) What is Identical Niche? What are the reasons of Competition? Write about species Richness Write about Effect of Pollution How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	(20)
 8. A Biological rhythm is best defined as a change over time. (True or False) Q-2. ANSWER IN SHORT. (Attempt any 10) 1. What is Identical Niche? 2. What are the reasons of Competition? 3. Write about species Richness 4. Write about Effect of Pollution 5. How Biodiversity is useful to Universe? 6. Explain term green house effect. 7. Explain the term external & internal fertilization. 8. Write about attention & courtship by sound. 9. Explain the term sexual dimorphism with example. 10. Write about Lunar rhythm. 	(20)
 Q-2. ANSWER IN SHORT. (Attempt any 10) 1. What is Identical Niche? 2. What are the reasons of Competition? 3. Write about species Richness 4. Write about Effect of Pollution 5. How Biodiversity is useful to Universe? 6. Explain term green house effect. 7. Explain the term external & internal fertilization. 8. Write about attention & courtship by sound. 9. Explain the term sexual dimorphism with example. 10. Write about Lunar rhythm. 	(20)
 What is Identical Niche? What are the reasons of Competition? Write about species Richness Write about Effect of Pollution How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	(20)
 What are the reasons of Competition? Write about species Richness Write about Effect of Pollution How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	
 Write about species Richness Write about Effect of Pollution How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	
 Write about Effect of Pollution How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	
 How Biodiversity is useful to Universe? Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	
 Explain term green house effect. Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	
 Explain the term external & internal fertilization. Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	•
 Write about attention & courtship by sound. Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	
 Explain the term sexual dimorphism with example. Write about Lunar rhythm. 	
10. Write about Lunar rhythm.	
•	
11. Explain the term Biological rhythm and Biological clock.	
, , , , , , , , , , , , , , , , , , , ,	
12. Write about Epicycles.	
Q-4. LONG ANSWER QUESTIONS. (Attempt any 4).	(8×4 =32)
1. Describe stratification with their types.	
2. Explain Edge effect.	
3. Give a detail account of Importance of Biodiversity.	
4. What is the Protocol of Endangered Species? Explain	
5. Describe the methods of studying animal behaviour.	
6. Explain the courtship in stickle back fish.	
7. Describe the Tidal and circadian rhythm with examples.	
8. Write an essay on Chronopharmacology.
