**ABSTRACT**

An abstract is a single paragraph, without subheadings, indentation or references. It should be an explicit summary of your presentation that states the problem, the objectives, the methods used, and the major results and conclusions. It should be single-spaced in 11-point Times New Roman. Do not include bullets/lists or references in the abstract. If there is a need to cite references, please provide the sources in brackets [ ]. Use only the SI units. Use a negative exponent (e.g. kgm<sup>-3</sup>) and do not indicate units as divisions (e.g. kg/m<sup>3</sup>). Chemical formulae should be written in standard form, such as “CaCO<sub>3</sub>”, not as “CaCO3”. Use a zero before decimal points, such as “0.45,” not “.45.” The first part of your abstract should state the problem or issue you set out to solve and explain your rationale for pursuing the research. The purpose of your study is to solve this problem and/or add to your discipline’s understanding of the issue. Your abstract should also describe the research methods. Next, your abstract should indicate the results or outcomes of the work you have done so far. Finally, your abstract should close with a statement of the project’s implications and contributions to its field. The content of the abstract will be the basis for acceptance of the paper presentation at the Research Scholar Meet. The abstracts will be peer-reviewed. Be sure to adhere to the word limitation for the abstract (200 -300 words). A maximum of 1 figure can be included in the submitted abstract without exceeding the limit of a single page. The abstract should be submitted in the format of a MS Word (.doc or .docx) document. **Abstract should strictly adhere to the given format.**

A single-page abstract in the prescribed template must be submitted online through the Google Form. Authors will be notified of abstract acceptance.

Keywords: words indentation Times New Roman font, size 11 (maximum 5 words)
