## Sardar Patel University

### Policy for Seed Money for Minor Research Project for University Teachers

#### 1. OBJECTIVES

To promote and encourage active the working teachers (permanent/temporary) of the University departments to initiate or continue their research activities, particularly in the areas of interdisciplinary nature. Keeping this objective in mind, Sardar Patel University provides financial support to meet their partial requirements for collaborative research in specialized areas of interdisciplinary nature.

This is a seed grant to help to initiate a new research project and not to augment the ongoing work. The work done with the seed grant should develop into a full major research project to be funded by UGC or other funding agencies.

It would be the responsibility of the Principal Investigator and the host Department for total accountability of the project. After completion of the project (date of finalization of accounts of the project), the principal Investigator should publish at least one research paper in a reputed journal in the form of Books/Article/Presentation in seminar etc. from the outcome of the sanctioned project.

If the PI is a temporary faculty member then one of the Co-PI must be a permanent faculty member of the same Department.

Department forwarding the proposal should extend adequate research facilities in support of the minor research project.
